

Excerpt from Weekly Activities Report, School of Intelligence
& World Affairs, 27 August 1970

Acting Chief, SIWA received a telephone request from Donald Nuechterlein, of the Federal Executive Institute. In the latter's capacity as Foreign Policy Seminar leader he is arranging visits in the D.C. area for six classmates of [] to obtain briefings on Southeast Asia. George Carver has agreed to talk with this small group in the USIB Conference Room at 1530 on Friday, 4 September. By then, the same group of executives will have been briefed by representatives of State, Brookings, the Senate Foreign Relations Committee and JCS/J-5. Hopefully, Nuechterlein is attempting to add a briefing from the NSC Staff. Briefing objectives: (1) Historical development of U.S. involvement in Southeast Asia, and relations to Japan, Communist China, and U.S.S.R. Vietnam is focus. (2) Key issues and forces affecting U.S. interest in Southeast Asia, especially South Vietnam. (3) Options available to U.S.

25X1

Because of the smallness of the group, briefings will be of the seminar-type.

Classification level of visitors: UNCLASSIFIED
